ARTIST BIOGRAPHY

- Sonixuniverse is the artist name of Sonu Agarwal a Dubai-based Driving and Mantra Techno producer, DJ, and label founder whose music bridges the ancient and the electronic. Born in India, and now rooted in Dubai, Sonixuniverse create what he calls a Ritual Techno Experience: a sonic world where Sanskrit mantras, tribal rhythms, and hypnotic techno grooves converge into something deeply powerful on the dancefloor.
- Launched in 2024, Sonixuniverse has built a rapidly growing presence in the underground techno scene releasing music under his own imprint Sonix Universe Records, achieving HYPE status on multiple Beatport releases, and earning a spot on international radioshow including Alexion's globally distributed Unfound Radio. His iconic Burj Khalifa rooftop DJ set - filmed for his YouTube series Mortal Threads has become a defining image of Dubai's emerging techno culture.
- With a sound that blends European techno precision with Eastern spiritual depth, Sonixuniverse occupies a space no other artist in the region owns. Every track follows a signature naming philosophy reflecting minimal spiritual identity and cosmic intention. His upcoming release 'The Ritual' continues this journey, pushing deeper into the intersection of ancient vibration and modern dancefloor energy.
- Sonixuniverse is officially signed with Animarum Recordings, while simultaneously expanding his creative vision through his own independent imprint, SonixUniverse Records. The label serves as a platform for innovative techno music and future collaborations with emerging artists worldwide.
- His music has also been featured on Insomnia Radio, further establishing his presence within the global underground techno music community.
- Looking ahead, Sonixuniverse is focused on expanding across Universal's club and festival circuit while continuing to release original productions for international audiences. His long-term vision is to represent techno music on the global stage through world-class productions, unforgettable live performances, and meaningful artistic collaborations.

KEY ACHIEVEMENTS

Beatport HYPE StatusMultiple tracks charting on Beatport's emerging artist platform

International Radio Feature
'The Praise' featured on Alexion's Unfound Radio 062

Burj Khalifa DJ Set
Live rooftop set at 3BK Terrace, one of Dubai's most iconic venues

Own Record Label
Founder of Sonix Universe Records, active on Beatport

SOUND & STYLE

GENRE: Driving Techno / Melodic Techno / Mantra Techno

BPM Range: 132 140 BPM

Core Concept: Ritual Techno Experience

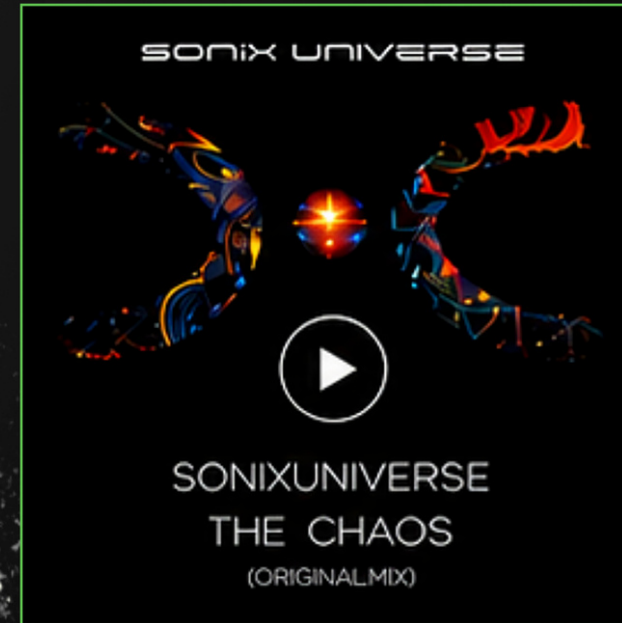

Elements: Sanskrit mantras, spiritual chants, hypnotic synth loops, tribal percussion, cosmic sound design

Influences: Alignment Records, Afterlife Records, Drumcode filtered through Eastern spiritual traditions
Sonixuniverse creates music that feels simultaneously ancient and futuristic as if the dancefloor is a ritual space and the DJ is a modern shaman.

His tracks are built for peak time sets but carry a meditative depth that lingers long after the music stops.
